Author Index Volume 163

Alcántara, J.I., see Moore, B.C.J. (163) 101
Altschuler, R.A., see Leonova, E.V. (163) 61

Barges, S., see Engel-Yeger, B. (163) 93
Bhattacharya, G., Miller, C., Kimberling, W.J., Jablonski, M.M. and Cosgrove, D.
Localization and expression of usherin: a novel basement membrane protein defective in people with Usher's syndrome type IIa (163) 1

Carrasquillo, M., see Engel-Yeger, B. (163) 93
Cosgrove, D., see Bhattacharya, G. (163) 1
Cosgrove, D., see Gratton, M.A. (163) 27

D'Agostino, R., see Gates, G.A. (163) 53

Engel-Yeger, B., Zaaroura, S., Zlotogora, J., Shalev, S., Hujeirat, Y., Carrasquillo, M., Barges, S. and Pratt, H.
The effects of a connexin 26 mutation – 35delG – on oto-acoustic emissions and brainstem evoked potentials: homozygotes and carriers (163) 93

Fairfield, D.A., see Leonova, E.V. (163) 61

Gates, G.A., Mills, D., Nam, B.-h., D'Agostino, R. and Rubel, E.W.
Effects of age on the distortion product otoacoustic emission growth functions (163) 53
Glasberg, B.R., see Moore, B.C.J. (163) 101
Gratton, M.A., Meehan, D.T., Smyth, B.J. and Cosgrove, D.
Strial marginal cells play a role in basement membrane homeostasis: In vitro and in vivo evidence (163) 27

Heled, S., see Hildesheimer, M. (163) 46
Henkin, Y., see Hildesheimer, M. (163) 46
Hildesheimer, M., Henkin, Y., Pye, A., Heled, S., Sahartov, E., Shabtai, E.L. and Muchnik, C.
Bilateral superior cervical sympathectomy and noise-induced, permanent threshold shift in guinea pigs (163) 46
Houtgast, T., see Theo Goverts, S. (163) 82
Hujeirat, Y., see Engel-Yeger, B. (163) 93

Itou, R., see Suzuki, M. (163) 37

Jablonski, M.M., see Bhattacharya, G. (163) 1

Kimberling, W.J., see Bhattacharya, G. (163) 1
Kitajima, K., see Suzuki, M. (163) 37
Kitanishi, T., see Suzuki, M. (163) 37
Kitano, H., see Suzuki, M. (163) 37
Kollmeier, B., see Riedel, H. (163) 12

Leonova, E.V., Fairfield, D.A., Lomax, M.I. and Altschuler, R.A.
Constitutive expression of Hsp27 in the rat cochlea (163) 61
Lomax, M.I., see Leonova, E.V. (163) 61

Meehan, D.T., see Gratton, M.A. (163) 27
Miller, C., see Bhattacharya, G. (163) 1
Mills, D., see Gates, G.A. (163) 53
Mire, P. and Nasse, J.
Hair bundle motility induced by chemoreceptors in anemones (163) 111
Moore, B.C.J., Alcántara, J.I. and Glasberg, B.R.
Behavioural measurement of level-dependent shifts in the vibration pattern on the basilar membrane (163) 101
Muchnik, C., see Hildesheimer, M. (163) 46

Nam, B.-h., see Gates, G.A. (163) 53
Nasse, J., see Mire, P. (163) 111
Nishida, Y., see Suzuki, M. (163) 37

Ogawa, F., see Suzuki, M. (163) 37

Pirvola, U., see Ylikoski, J. (163) 71
Pratt, H., see Engel-Yeger, B. (163) 93
Pye, A., see Hildesheimer, M. (163) 46

Riedel, H. and Kollmeier, B.
Auditory brain stem responses evoked by lateralized clicks: is lateralization extracted in the human brain stem? (163) 12
Rubel, E.W., see Gates, G.A. (163) 53

Sahartov, E., see Hildesheimer, M. (163) 46
Shabtai, E.L., see Hildesheimer, M. (163) 46
Shalev, S., see Engel-Yeger, B. (163) 93
Shiino, A., see Suzuki, M. (163) 37
Smyth, B.J., see Gratton, M.A. (163) 27
Suzuki, M., Kitano, H., Kitanishi, T., Itou, R., Shiino, A., Nishida, Y., Yazawa, Y., Ogawa, F. and Kitajima, K.
Cortical and subcortical activation with monaural monosyllabic stimulation by functional MRI (163) 37

Theo Goverts, S., Houtgast, T. and van Beek, H.H.M.
The precedence effect for lateralization for the mild sensory neural hearing impaired (163) 82

van Beek, H.H.M., see Theo Goverts, S. (163) 82
Virkkala, J., see Ylikoski, J. (163) 71

Xing-Qun, L., see Ylikoski, J. (163) 71

Yazawa, Y., see Suzuki, M. (163) 37
Ylikoski, J., Xing-Qun, L., Virkkala, J. and Pirvola, U.
Blockade of c-Jun N-terminal kinase pathway attenuates gentamicin-induced cochlear and vestibular hair cell death (163) 71

Zaaroura, S., see Engel-Yeger, B. (163) 93
Zlotogora, J., see Engel-Yeger, B. (163) 93

PII: S0378-5955(01)00421-X

HEARING RESEARCH

www.elsevier.com/locate/heares

Subject Index Volume 163

Aging
Presbycusis; Strial atrophy; Distortion product otoacoustic emission (Gates, G.A. (163) 53)

Auditory
Hereditary; Congenital deafness; Consanguinity; Physiology; Connexin 26 (Engel-Yeger, B. (163) 93)

Auditory brain stem response
Binaural difference potential; Interaural time difference; Interaural level difference; Lateralization (Riedel, H. (163) 12)

Auditory response
Functional magnetic resonance imaging; Human brain mapping; Profound unilateral deafness; Monaural stimulation (Suzuki, M. (163) 37)

Basement membrane
Usher's syndrome; Usherin; Cochlea; Retinitis pigmentosa (Bhattacharya, G. (163) 1)

Cochlea; Stria vascularis; Pathogenesis; Extracellular matrix; Cell culture (Gratton, M.A. (163) 27)

Basilar-membrane mechanics
Forward masking; Frequency tuning (Moore, B.C.J. (163) 101)

Binaural difference potential
Auditory brain stem response; Interaural time difference; Interaural level difference; Lateralization (Riedel, H. (163) 12)

Binaural hearing
Precedence effect; Localization dominance; Lateralization accuracy; Hearing impaired (Theo Goverts, S. (163) 82)

Cell culture
Cochlea; Stria vascularis; Basement membrane; Pathogenesis; Extracellular matrix (Gratton, M.A. (163) 27)

Cellular death
Cellular stress; c-Jun N-terminal kinase signalling; Inner ear; Hair cell; Ototoxicity (Ylikoski, J. (163) 71)

Cellular stress
c-Jun N-terminal kinase signalling; Cellular death; Inner ear; Hair cell; Ototoxicity (Ylikoski, J. (163) 71)

c-Jun N-terminal kinase signalling
Cellular stress; Cellular death; Inner ear; Hair cell; Ototoxicity (Ylikoski, J. (163) 71)

Cochlea
Usher's syndrome; Usherin; Basement membrane; Retinitis pigmentosa (Bhattacharya, G. (163) 1)

Stria vascularis; Basement membrane; Pathogenesis; Extracellular matrix; Cell culture (Gratton, M.A. (163) 27)

Cochlear sympathetic innervation
Permanent threshold shift; Temporary threshold shift; Noise; Stress (Hildesheimer, M. (163) 46)

Congenital deafness
Hereditary; Consanguinity; Auditory; Physiology; Connexin 26 (Engel-Yeger, B. (163) 93)

Connexin 26
Hereditary; Congenital deafness; Consanguinity; Auditory; Physiology (Engel-Yeger, B. (163) 93)

Consanguinity
Hereditary; Congenital deafness; Auditory; Physiology; Connexin 26 (Engel-Yeger, B. (163) 93)

Distortion product otoacoustic emission
Presbycusis; Strial atrophy; Aging (Gates, G.A. (163) 53)

Extracellular matrix
Cochlea; Stria vascularis; Basement membrane; Pathogenesis; Cell culture (Gratton, M.A. (163) 27)

Forward masking
Basilar-membrane mechanics; Frequency tuning (Moore, B.C.J. (163) 101)

Frequency tuning
Forward masking; Basilar-membrane mechanics (Moore, B.C.J. (163) 101)

Functional magnetic resonance imaging
Auditory response; Human brain mapping; Profound unilateral deafness; Monaural stimulation (Suzuki, M. (163) 37)

Hair bundle
Hair cell; Mechanotransduction; Motility; Stereocilium; Tip link (Mire, P. (163) 111)

Hair cell
Cellular stress; c-Jun N-terminal kinase signalling; Cellular death; Inner ear; Ototoxicity (Ylikoski, J. (163) 71)

Hair bundle; Mechanotransduction; Motility; Stereocilium; Tip link (Mire, P. (163) 111)

PII: S0378-5955(01)00422-1

Hearing impaired
Precedence effect; Localization dominance; Lateralization accuracy; Binaural hearing (Theo Goverts, S. (163) 82)

Heat shock protein-27
Reverse transcription-polymerase chain reaction; Immunofluorescence; Outer hair cell; Tension fibroblast; Rat (Leonova, E.V. (163) 61)

Hereditary
Congenital deafness; Consanguinity; Auditory; Physiology; Connexin 26 (Engel-Yeger, B. (163) 93)

Human brain mapping
Functional magnetic resonance imaging; Auditory response; Profound unilateral deafness; Monaural stimulation (Suzuki, M. (163) 37)

Immunofluorescence
Heat shock protein-27; Reverse transcription-polymerase chain reaction; Outer hair cell; Tension fibroblast; Rat (Leonova, E.V. (163) 61)

Inner ear
Cellular stress; c-Jun N-terminal kinase signalling; Cellular death; Hair cell; Ototoxicity (Ylikoski, J. (163) 71)

Interaural level difference
Auditory brain stem response; Binaural difference potential; Interaural time difference; Lateralization (Riedel, H. (163) 12)

Interaural time difference
Auditory brain stem response; Binaural difference potential; Interaural level difference; Lateralization (Riedel, H. (163) 12)

Lateralization
Auditory brain stem response; Binaural difference potential; Interaural time difference; Interaural level difference (Riedel, H. (163) 12)

Lateralization accuracy
Precedence effect; Localization dominance; Binaural hearing; Hearing impaired (Theo Goverts, S. (163) 82)

Localization dominance
Precedence effect; Lateralization accuracy; Binaural hearing; Hearing impaired (Theo Goverts, S. (163) 82)

Mechanotransduction
Hair bundle; Hair cell; Motility; Stereocilium; Tip link (Mire, P. (163) 111)

Monaural stimulation
Functional magnetic resonance imaging; Auditory response; Human brain mapping; Profound unilateral deafness (Suzuki, M. (163) 37)

Motility
Hair bundle; Hair cell; Mechanotransduction; Stereocilium; Tip link (Mire, P. (163) 111)

Noise
Permanent threshold shift; Temporary threshold shift; Cochlear sympathetic innervation; Stress (Hildesheimer, M. (163) 46)

Ototoxicity
Cellular stress; c-Jun N-terminal kinase signalling; Cellular death; Inner ear; Hair cell (Ylikoski, J. (163) 71)

Outer hair cell
Heat shock protein-27; Reverse transcription-polymerase chain reaction; Immunofluorescence; Tension fibroblast; Rat (Leonova, E.V. (163) 61)

Pathogenesis
Cochlea; Stria vascularis; Basement membrane; Extracellular matrix; Cell culture (Gratton, M.A. (163) 27)

Permanent thresiold shift
Temporary threshold shift; Cochlear sympathetic innervation; Noise; Stress (Hildesheimer, M. (163) 46)

Physiology
Hereditary; Congenital deafness; Consanguinity; Auditory; Connexin 26 (Engel-Yeger, B. (163) 93)

Precedence effect
Localization dominance; Lateralization accuracy; Binaural hearing; Hearing impaired (Theo Goverts, S. (163) 82)

Presbycusis
Strial atrophy; Distortion product otoacoustic emission; Aging (Gates, G.A. (163) 53)

Profound unilateral deafness
Functional magnetic resonance imaging; Auditory response; Human brain mapping; Monaural stimulation (Suzuki, M. (163) 37)

Rat
Heat shock protein-27; Reverse transcription-polymerase chain reaction; Immunofluorescence; Outer hair cell; Tension fibroblast (Leonova, E.V. (163) 61)

Retinitis pigmentosa
Usher's syndrome; Usherin; Basement membrane; Cochlea (Bhattacharya, G. (163) 1)

Reverse transcription-polymerase chain reaction
Heat shock protein-27; Immunofluorescence; Outer hair cell; Tension fibroblast; Rat (Leonova, E.V. (163) 61)

Stereocilium
Hair bundle; Hair cell; Mechanotransduction; Motility; Tip link (Mire, P. (163) 111)

Stress
Permanent threshold shift; Temporary threshold shift; Cochlear sympathetic innervation; Noise (Hildesheimer, M. (163) 46)

Stria vascularis
Cochlea; Basement membrane; Pathogenesis; Extracellular matrix; Cell culture (Gratton, M.A. (163) 27)

Strial atrophy
Presbycusis; Distortion product otoacoustic emission; Aging (Gates, G.A. (163) 53)

Temporary threshold shift
Permanent threshold shift; Cochlear sympathetic innervation; Noise; Stress (Hildesheimer, M. (163) 46)

Tension fibroblast
Heat shock protein-27; Reverse transcription-polymerase chain reaction; Immunofluorescence; Outer hair cell; Rat (Leonova, E.V. (163) 61)

Tip link
Hair bundle: Hair cell: Mechanotransduction: Motility: Stereocilium (Mire, P. (163) 111)

Usher's syndrome
Usherin: Basement membrane: Cochlea: Retinitis pigmentosa (Bhattacharya, G. (163) 1)

Usherin
Usher's syndrome: Basement membrane: Cochlea: Retinitis pigmentosa (Bhattacharya, G. (163) 1)
